THE FILIPINOS SUFFER MORE LOSS

SEVERAL THOUSAND DRIVEN FROM THEIR POSITIONS.

Gen. Hale's Brigade Made the Advance on Rebels—Entire Line Swept Down on Filipinos, Who Fled in Dismay—Only One Causalty to the Americans.

Manila, March 7—[Special]—The Filipinos at San Juan del Monte, numbering several thousand were driven from their positions today with a great loss. Hale's brigade made the advance on the rebels. As soon as the lines were well underway a Wyoming regiment closed in, firing rapidly. Suddenly one company dashed toward the rebel intrenchments. The action electrified the Americans, and the entire line swept down on the Filipinos, who fled in dismay with the Americans after them. When the insurgents reached the river, they were met by pitiless shelling from a gunboat infantry also closing in on them. Those who escaped scattered in all directions. The only casualty to Americans was one Nebraskan wounded.

Washington, March 7.—The war department is anticipating important news from Manila within the next fortnight. It is said that Gen. Otis has completed his plans for an invasion of the territory north of Manila, held by the insurgents. The troops are restless under the annoying fire of the insurgent sharpshooters, and wish to clear out the jungles.

Gen. Otis is preparing to clear out the intervening country and capture Malolos, the capital of the so-called Filipino republic. It is believed that when he clears the country between Manila and Malolos of insurgents and takes possession of the latter place he will effectually end the campaign of Aguinaldo.

Gen. Otis now has about 25,000 men, and in the next two weeks will have more than 30,000. He has ample force to make the offensive movement contemplated, and it is expected that he will capture Malolos within a fortnight.

American Lines Advanced.

Manila, March 7.—An advance was made Monday by Gen. Hale's brigade on Santolan and Mariquina. The Americans met resistance from the largest body of natives they have yet encountered.

The Colorado, Nebraska and Wyoming regiments, with eight guns of the Utah artillery and two companies of the Oregon regiment, were engaged. A gunboat also took part in the fighting. The Twentieth infantry was held in reserve.

The fighting spread to Gen. Wheaton's brigade, consisting of the California, Washington and Idaho volunteer regiments and the Sixth artillery. The rebels were dislodged from their position and compelled to retreat. Eight Americans were wounded.

Gen. McArthur's and Gen. Hale's forces remain at the waterworks.

Skirmish Near Water Works.

Manila, March 7.—The rebels made an attack on the guards of the waterworks Monday morning. The attack, like most of those made recently, seemed an isolated movement of the rebel chiefs commanding in that quarter, and was easily repulsed. The rebels left seventeen dead on the field, and many others were seen to be wounded. Detachments of the First Nebraska and Second Oregon were engaged in the skirmish. Only two Americans were wounded and none killed.

There has been no serious fighting in the island of Panay. There is occasional skirmishing outside of Iloilo, but no losses to the American troops since the skirmish at Jaro.

Advices from Negros island say the situation there is peaceful and that trade is steadily improving.

Large Force in Philippines.

Washington, March 7.—Forty-one thousand officers and men of the combined army and navy forces comprise the approximate total American strength now at, en route and under orders for service at the Philippines. No further re-enforcements are now in contemplation. The forces of the two services already stationed in and about the archipelago consist of twenty regiments of infantry, one engineer battalion, seven troops of cavalry and eleven batteries of artillery, an aggregate of about 24,000 men. Nineteen vessels, with an aggregate of 297 officers, 2,990 men and 253 marines, make up the naval contingent. This is exclusive of the transport Solace, with 162 officers and men all told, which is constantly passing back and forth from Manila. There are about 4,800 army re-enforcements on the way to Manila, making as rapid progress as possible, and there are, roughly, 7,500 men in the force under orders to proceed to the Philippines.

Madison, March 7—[Special]—The famous McGillivray bill, for the distribution of state patronage by counties, on a basis of population, went to its third reading in the senate by a vote of sixteen to twelve, after being amended by the author, to provide that it should not take effect until the next administration and striking out the penalty clause. Senator Roehr opposed the bill because he could not see any merit in it and for the reason that the plan was impractical. MULLAGATAWNY SOUP.—This highly seasoned soup has so much more body than an ordinary soup that it may well serve as the principal dish occasionally during the winter. It may be made from veal, fowl or rabbit, but always requires a high seasoning of onion, curry powder and some acid fruit, or it is not worthy of its name, which means "pepper pot." Clean a three or four pound fowl and cut it at the joints into nice pieces for serving. Use also one pound of veal bones and trimmings if you have them. Slice two onions and fry them brown, and quarter and core two sour apples. Put all these into a stewpan with four quarts of cold water. Add four cloves and four peppercorns, cover closely and let it cook slowly until the fowl is tender. Remove it and cut the meat from the bones in small pieces. Return the bones to the kettle and add one level tablespoonful curry powder, one level teaspoonful each of salt and sugar mixed to a smooth paste with a little water. Simmer another hour, or until reduced one-half, then strain the soup, cool it and remove the fat. Put it on to boil again, add the pieces of fowl and one cupful of rice previously boiled. When the meat is hot, serve at once. If all the meat is not required at the first meal, or the flavor of curry is not desired, part of it may be served in some other manner.

WOOD'S METHOD OF PHOTOGRAPHY

SAYS HE CAN REPRODUCE THE NATURAL COLORS.

R. M. LaFollete Much Improved in Health—Said That John M. True Will Be Made Secretary of the Board of Agriculture—Other State News.

Madison, Wis., March 7—Prof. R. W. Wood, of the state university, originator of the electrical thaw, has a new method of photographing in natural color.

Prof. Wood reproduces the colors by defraction, a method not hitherto tried, though at present the production of the first finished picture is somewhat tedious, though not difficult process. When it is once made, duplicates can be printed from it as easily as ordinary photographs are made.

The pictures are on glass, and are not only colorless, but almost invisible when viewed in ordinary light, but when placed in a viewing apparatus, consisting of a convex lens on a light frame, show the colors of nature with great brilliancy. Prof. Wood today said: "The finished picture is simply a defraction grating of variable spacing. In other words, it is a transparent film of gelatine with a very fine parallel and equi-distant lines on it, about 2,000 to the inch on the average. The colors depend solely on the spacing between the lines, and are pure spectrum colors, or mixtures of such, the n ecessity of colored screens or pigments, used in all other processes except that of Lippmann, having been overcome.

"The pictures can be projected on a screen by employing a suitable lantern, or can be viewed individually with a very simple piece of apparatus, consisting of a lens and perforated screen mounted on a frame. I feel confident that the present process can be greatly simplified, and believe that it will be possible to expose a plate in the camera under three color filters on the surfaces of which defraction gratings have been impressed by photography, and develop it at once into a colored photograph, which strange to say, will be a positive when seen in the viewing apparatus, or projected. A peculiarity of the process is that there is no such thing as a negative in it. I have printed half a dozen pictures in succession one from another, and all are positive and indistinguishable from each other.

"The pictures as I now make them rather exaggerate the luminosity of the subject, but are very pleasing to the eye, and wholly different in appearance from pictures produced in any other way."

Report as to John M. True

Madison, March 7—Assemblyman John M. True, of Baraboo, resigned as a member of the State Board of Agriculture, it is said, to accept the secretaryship of the board, succeeding Mr. Everett. The board is required by law to elect officers, including secretary, the first Tuesday in March. The tenure of office is one year. The law provides no salary for the secretary, though it empowers the board to fix one.

The money was handed to ex-Mayor Rogers and by the latter to President Adams.

THAW PIPES WITH SALT

Dr. E. H. Dudley Tells How to Save Plumbers' Bills

The suggestion is offered that frozen water pipes can be thawed by unscrewing the faucet and pouring into the pipe a pound or two of coarse salt. Then screw the faucet on again and in a day or two the salt will eat its way through the ice and the water will flow.

"I have tried the plan with much success," said Dr. E. H. Dudley to a Gazette man, "and I know it to be all right."

COLD CURE

Delivered the Goods.

The statement that Rudyard Kipling had received a shilling a word for a story in an English magazine induced a wag to write him and inclose a shilling postal order. "Hearing that wisdom was being retailed at a shilling a word," writes the joker, "I inclose a shilling for a sample." Kipling kept the order and sent back the word "Thanks."

Poisoned by Grip

It is an awful thing to feel that the blood that goes coursing through your veins on its mission of feeding, building up and strengthening your nerves, brain, muscles, bones and sinews, may be polluted with a subtle and deadly poison which only awaits an opportunity to strike a deadly blow to your health, and possibly to your life.

Everyone who has had the grip and has not taken the pains to thoroughly cleanse the system of the poisons which that terrible disease creates in the blood is having just that experience. The hour when the blow will come may not be known; but that it is surely coming there is no room to doubt.

Do not wait until it is too late before you begin to fight this dread poison. Begin now, and begin with a remedy that is sure to help you. Dr. Miles' Nervine is an antidote for grip poisons. It strengthens and invigorates the nerves and gives them the power to search out and kill the germs of disease. It whets the appetite, aids digestion and makes new, rich blood to take the place of the poisoned products that are driven off.

"After a very severe attack of La Grippe I found myself suffering from aggravated heart trouble. I had palpitation, shortness of breath and experienced a dull pain and smothering feeling in left breast. I was very nervous and restless and could sleep but little day or night. I began taking Dr. Miles' Nervine, and received so much help from it that I followed every dose with Dr. Miles' New Heart Cure. In a few weeks my health was restored and I have had no return of the trouble in seven years."

MRS. TRUMAN TEMPLE,
Granville, N. Y.

A trial package of Dr. Miles' favorite treatment for La Grippe, consisting of Dr. Miles' Restorative Nervine, Dr. Miles' Anti-Pain Pills and Dr. Miles Nerve and Liver Pills, will be sent absolutely free of cost to any person ending name and address on a postal card, requesting the samples, and mentioning the name of this paper address

"I owe my whole life to Burdock Blood Bitters. Scrofulous sores covered my body. I seemed beyond cure. B. B. B. has made me a perfectly well woman." Mrs. Charles Hutton, Berville, Mich.

Great Britain's Seacoast Line.

Great Britain has a longer seacoast line than any other country in Europe. It measures 2,775 miles, with Italy second, 2,472 miles. Russia ranks third and France fourth.

RAID NOT APPROVED.

President McKinley Deprecates the San Mun Bay Seizure.

Washington, March 7.—The United States government is to take no part in raids on China. It will remain passive so long as the commercial interests of this country are not affected by the dismemberment schemes projected by European rulers.

Not only this, but the government of Italy has been informed by the department of state that its San Mun bay project is not favorably viewed by President McKinley.

It has become known that, with all the other powers, Italy sounded this government touching its attitude regarding the Italian design on China. The reply was carefully diplomatic, but must be considered in the light of an objection, as it deprecated the course that King Humbert was about to take.

The developments of the day would indicate that another danger period for the powers has arrived. It was asserted here by a diplomat of international fame that Great Britain is opposing the schemes of Italy, but that Italy has the support of France, Russia and Germany.

This fact of British opposition comes in the nature of a surprise, for since the San Mun bay raid first became public it has been said that the Salisbury government was behind the government of King Humbert. The dispatches from Pekin said so positively, and no denials came from the London foreign office. Now, however, that the truth is out, the chance is that friction will increase. It is virtually the dreibund, backed by Russia, against Great Britain, and in the circumstances it would appear that Italy will get her slice of China.

MAY REJECT STATUE.

Illinois Congressmen Prefer to First Honor the State's Sons.

Washington, March 7.—The statue of Miss Francis E. Willard may not be placed in statuary hall of the house of representatives. Although the state assembly of Illinois has appropriated $9,000 for that purpose, the Illinois congressional delegation is at loggerheads over the proposition and may prevent it.

The opposition of placing a statue of a woman in the hall is headed by Representative Hopkins of Illinois on the ground that Illinois had four distinguished sons—Ulysses S. Grant, Abraham Lincoln, Stephen A. Douglas and John A. Logan—whose life work and public services place them ahead of Miss Willard.

Money for Cuba Ready to Go.

Washington, March 7.—The war department is making arrangements for shipping to Cuba the $3,000,000 asked for by Gen. Brooke for paying off the Cuban army. Definite arrangements have not been completed, but the money will be shipped the latter part of the week from New York and two or three paymasters will be detailed in a day or two to take charge of the money and accompany it, turning it over to Gen. Brooke's possession and probably attending to details of the payment of the proper authorities on the part of the Cubans. The vessel to carry it has not been selected.

Noted Methodist Bishop Ill.

New York, March 7.—Bishop Henry W. Warren, one of the foremost dignitaries of the Methodist church, is suffering with appendicitis at Buenos Ayres, Argentine, South America. An operation was performed upon him March 1, and he is resting from the shock of that at the present time. No alarming reports as to his condition have been received, although his age—68—makes it possible that he is seriously ill.

Believed Dreyfus Innocent.

London, March 7.—A dispatch to the Daily News from Paris says that two months ago President Faure received a French missionary named Vienot, who had come to France from Oceanica to spend a vacation. In the course of their conversation M. Faure said he believed that Dreyfus was innocent, but it would be hard to release him now, as it would cause the ruin of so many important men.

British East Africa Famine.

London, March 7.—A dispatch from Mombasa says that famine is prevalent in many of the districts of British East Africa.

Vitality of Snails.

The snail is blessed with great powers of vitality. A case is recorded of an Egyptian desert snail which came to life upon being immersed in warm water after having passed four years glued to a card in the English Museum. Some species, in the collection of a certain naturalist, revived after they had apparently been dead for fifteen years; and snails, having been frozen for weeks in solid blocks of ice, have recovered upon being thawed out. The eggs are as hard to destroy as the snail itself. They seem perfectly indifferent to freezing, and have been known to prove productive after having been shriveled up in an oven to the semblance of grains of sand.

We have in stock a good line of

R & G Corsets

and will be pleased to show them to the "one woman in seven"—and to the other six women also.

You will please bear in mind that we carry all the following well known makes of corsets:

And then remember we sell every one of these corsets a little less for **CASH** than other merchants sell them.

THIS DAY IN HISTORY.

1774—British parliament closed the port of Boston. The "Boston tea party" of Dec. 16, 1773, led to retaliatory measures as soon as news of the affair reached parliament. That body immediately passed the "Boston port bill," which closed the port to all commerce and transferred the board of customs to Marblehead and the seat of the colonial government to Salem. Thus Boston became the recognized champion of popular rights and victim of royal persecution. Money and supplies were contributed by the colonies and by sympathizers abroad.

1874—Millard Fillmore, thirteenth president, died in Buffalo; born 1800.

1875—Sir Arthur Helps, author, died in London, aged 69. Claude Louis Mathieu, French astronomer, died; aged 92. General Sir James Hope Grant, English conqueror of Peking in 1860, died; born 1808.

1877—Matilda Heron, actress, noted for her Camille, died in New York city; born 1830.

1896—James H. McVicker, veteran theatrical manager, died in Chicago; born 1822.

1898—General Nelson B. Sweetzer, U. S. A., retired, died in Washington; born 1839.

JAY GOULD'S YOUNGEST CHILD

From the family of Jay Gould the New York stock exchange has received its latest and one of its youngest recruits. Frank J. Gould, the youngest

FRANK J. GOULD.

of the family, has just bought a seat on the exchange. The recent boom in stock trading has made such privileges highly valuable, and his membership cost the young millionaire $30,000, the highest price recorded in more than ten years. Unquestionably he can afford it. By the terms of his father's will he was to come into control of his share of the estate on attaining his majority. He was 21 years old Dec. 5, and on the following day Russell Sage, who had been trustee of this part of the fortune, rendered to him an accounting of his stewardship. The details were not made public, but as the amount originally was more than $10,000,000, the youngest Gould enters upon his career in finance with solid backing. He is a quiet, unassuming young man, devoted to business and fond of sport. Frank has been under the guardianship of his sister, Miss Helen Gould, and lives with her at Lyndhurst, near Irvington, N. Y. He was educated at the Berkeley school and New York university. To prepare himself for the proper management of his fortune he has made trips over the railroads controlled by the Gould interests and has made his business headquarters in the offices of the Missouri Pacific railway, in New York. He is a great lover of dogs. Recently he bought Presto and Laura Jean, rough coated St. Bernards, for his kennels, the reported price being $5,000.

Acetylene for Street Lighting.

The City of Wabash, Ind., is soon to be lighted by an acetylene gas plant, now being installed by the Logansport and Wabash Valley Gas Company, otherwise known as the Deitrich Syndicate, says the Railways Review. The machinery and materials are now on the ground and the city authorities inform us that the street lights will probably be in operation shortly. The city has heretofore been lighted by artificial gas, in the usual way, and the substitution of acetylene for street lighting is an experiment which has been but little tried.

Britain's Homeless Wanderers.

In Great Britain it has been reckoned that there are about 100,000 absolutely "homeless wanderers," and that 60,000 of those belong to London.

WHAT IS TRUE CHARITY?

Who is worthy of charity? What is true charity? To whom shall it be given? Who is worthy to receive charity and who is not? These are the questions that confront us daily, and at the close of the day we are no nearer answering them than at the break of dawn. We will take a few experiences for an example. We have an applicant for charity; an investigation is made (which should always be done—a spontaneous gift of alms is seldom charity). When we come to the home we find the father a drunken vagabond.

We next find out something about the mother, and in her case we find that woman's honor, woman's virtue and purity are at a low ebb in this wretched home. Are they worthy? Is charity too pure for such as they? But pause, my friend, and think. On the one side we are confronted with drunkenness, disgrace and vice, on the other with freezing and starvation. Dare we leave them thus? Are they not human? Did not the same God create us both? No matter how low they have fallen nor how deep their souls are in sin—dare we take the right to judge them and pass them by as unworthy?

Now we enter the home of another applicant. Drunkenness, vice and dishonor have no place here. Mismanagement and laziness are the predominating evils. The income of his family (say of six) is only $1 per day. When we look around we are appalled at the evidence of filth, laziness and mismanagement we see. What are we to do? They are cold and hungry, and come to for charity. Shall we say to them: "You are lazy and a poor manager; you are not worthy?"

These are but two of the many pictures of life that come before us every day, and we often stand appalled when the question comes to us, What is true charity; to whom shall we give it; who is worthy to receive it?—Nashville American.

Some women are afraid in the dark and others are afraid of the light.

LOWELL HARDWARE CO.

ALL DID THEIR PART TOWARD THE FAIR

JANESVILLE PEOPLE WERE EAGER TO OFFER AID.

Names of Those Who Made Cash Contributions — Man Who Won the Prize on Angel's Food Scorns the Aid of the Cook Books.

As the work of the fourth Midwinter Fair is summed up, it has seemed to have been more successful than in any previous season. For this success the committee is under obligations to the manufacturers, merchants and other business and professional men of the city, to whom they wish to return thanks in this formal manner.

F. A. Taylor, by his donation of the rink building, Captain Pliney Norcross, who lighted the rink free of charge, and the Imperial, Y. M. C. A. and School for the Blind bands, who went to much effort to entertain the crowds, are especially entitled to acknowledgement. There are hosts of others who might fairly be singled out for thanks. When fair week comes, everybody in Janesville seems to be willing to lend a hand and do whatever is possible to make the week a memorable one. Anything like a complete list of those who helped, would therefore be impossible.

As threre is no possibility of developing revenue in connection with the fair the labor of conducting it must inevetably be gratuitous. Each member of the committee gives from a week to ten days of his time to the work, and, as said before, all the business men of the city have been glad to second the efforts thus begun.

In regard to decorating the rink, the people of the county are to be asked to aid next year. Prizes will be offered for the most attractive sheaves of grain or articles of a similar character sent for decorative purposes.

These sheaves will be used in garnishing the fair buildings and prizes will be awarded according to merit by competent judges.

Interesting bits of fair news comes to the surface from time to time. The first prize on angels food was won this year by a man—and a man who came pretty near being a six footer at that.

"It was the second time I ever tried to make an angel's food in my life," he said.

"What recipe did you use," he was asked.

"Didn't use any. Just put it together by common sense" said the triumphant farmer.

This evidence of the superiority of the masculine intellect over the time honored tradition of cook books is too important to be disregarded. Not many of the cake prizes were won by men. The fruit cake prize went to a young lady who has won it for three years in succession. She goes into the competition with such care for detail that she bakes her cake six months before hand and gives it plenty of time to season.

Between now and the time for the next fair the committee will be very glad to receive suggestions from any one in the county as to desirable features or attractive departures. Suggestions may be sent by mail to the secretary, F. L. Clemons, or may be given to any member of the committee. The Midwinter Fair committee, as may be inferred from the foregoing statement, is on duty twelve months in the year.

'NEATH THE SHADOW OF DEATH'S WING

MANY JANESVILLE HOMES DARKENED BY SORROW.

Funeral Services Over Mrs. Laura Therese Sheldon This Afternoon—Hon. Fenner Kimball's Funeral Set For Thursday—Memorial to Mrs. John Wetmore.

Friends gathered at the home of Fred S. Sheldon in Forest Park this afternoon, and bid a long farewell to one that was universally beloved—Mrs. Laura Therese Sheldon. Frankness, sincerity, and a wonderfully direct and ingenuous nature had won for Mrs. Sheldon a warm place in many hearts. None who knew her could fail to appreciate what her departure must mean to the stricken husband and family. The expressions of sympathy were the more tender accordingly. Not all of these expressions took the form of words. The silent tributes of flowers were unusually beautiful, and seemed to have an especial significance.

The words of the funeral service were spoken by Rev. A. H. Barrington. The interment was at Oak Hill, many gathering about the grave, in spite of forbidding weather. Those who acted as pall bearers were W. A. Jackson, C. B. Bostwick, S. M. Smith, N. L. Carle, F. H. Jackman and J. C. Wilmarth.

Mrs. Lydia M. Carrier

At her home in the town of Center on the morning of her birthday, Mrs. Lydia M. Carrier, widow of the late N. M. Carrier, passed from earth, aged 74 years. Day after day had her family and friends watched over her, hoping that each day she gained it was permanent, but as she lay on her bed of suffering she kept saying: "I am not sick, I will soon be better if I am careful." So they all hoped, and she seemed to be gaining but, alas, in a moment she was gone.

Another pioneer is gone and in the death of Mrs. Carrier it is not the immediate family that is afflicted. Rich and poor both have always been helped by her willing hands and heart. From the early settling of the country Mrs. Carrier was always working and toiling to help and enlighten the burdens of those in distress and sorrow. In the hours of delirium during her sickness she would say to her doctor and friends watching over her:

"Let me get up. Oh, I must get up. This world is not made for idlers."

As in health so in sickness her motto was "Work and do." In her death a truly good christian woman was taken and many will call to mind some favor received from her hands.

Two children survive—Mary Carrier and Arthur M. Carrier.

Mrs. Carrier died as she had lived, a devoted Methodist, only her feebleness of late preventing her active work in the church. It may be said of her, "she has fought a good fight and her works do follow her."

Funeral services will be held at the family residence in the town of Center Wednesday afternoon at 2:30 p. m.

Mrs. P. A. Wetmore.

The burial services of Mrs. Wetmore (relict of the late John Wetmore), whose death occurred Thursday, March 2, 1899, at 5 o'clock a. m., were held at the family residence, 57 Oakland avenue, Sunday afternoon, at 1:30 o'clock. Rev. R. C. Denison, officiating, assisted by Rev. W. A. Hall. The song service was rendered by Mrs. A. O. Wilson, Mrs. E. M. Hyzer, George G. Paris and C. N. Vankirk. Tenderly and sweetly they sang "Pilot Me" and "I'm a Pilgrim." The floral offerings were beautiful and profuse. A pillow with the word "Mother" in immortelles, a strand of choice callie lilies from friends nearest her home, one piece from the Chicago relatives and many other tokens from those who hold her memory sacred. The services were largely attended and after each had taken leave of the dear friend of many years, the casket lid was raised, the floral offerings strewn above the form of her, to whom flowers were so dear, and for whom she had given much care, even to the last day af her earthly pilgrimage. She rests beneath a covering of beautiful flowers, fit emblems of the purity and lovliness of her character and life. The remains were followed to their last resting place and tenderly laid to rest in the beautiful Emerald Grove cemetery beside her husband, who had preceded her but twenty-one months. The pall bearers were J. M. Bostwick, W. G. Palmer, H. Cunningham, L. L. Fletcher, J. F. Thompson and Mr. Plants; old-time friends, and chosen by her a few days before her death. At the grave, Rev. R. C. Denison closed the services in a few well chosen words by paying a high tribute to the character of her who had been a faithful wife, the tender, loving mother, the helpful friend and the consistent and ever conscientious christian.

Polly Ann Earl was born July 10th, 1831, in Dresden, Washington county, New York, removing from there to Bradford, Wis., with her family where she was united in marriage with John Wetmore, October 31st, 1849.

Seven children blest the union of Mr. and Mrs. Wetmore: William Henry, John Courtland, of Whitewater; Frank Herbert, of Emerald Grove; Flora Belle, George Earle, of Bradford; Richard Grove, of West Union, Iowa, and Frederick Starr, of Janesville. The eldest died in infancy, Flora Belle, the only daughter and of rare promise, died while in her commencement year at Milton College, in 1880. The five sons mourn the loss of a loving mother. She leaves two brothers and one sister, the former are Earle Brothers, commission merchants at Chicago; the latter resides in Minnesota.

Mrs. Wetmore was a woman of deeply conscientious spirit, unwaverly faithful to duty and right, and was much beloved by her neighbors, for her kindly unselfish sympathy and friendliness. She was, and had been for many years, a member of the Congregational church at Emerald Grove, and beautifully manifested her christian faith in her daily life, as wife, mother and friend.

"Life's race well run,
Life's work well done,
Life's victory won—
Now cometh rest."

Walter Buggs.

Mr. and Mrs. Walter Buggs, who reside at the corner of Western avenue and Academy street, are sadly afflicted in the death of their infant son, Walter, who passed away yesterday at the age of twenty months, of congestion of the brain.

The afflicted parents have the sympathy of many in this their hour of sorrow. The funeral will be held from the home tomorrow at 1:30 o'clock and from St. Paul's Lutheran church at 2 o'clock. The interment will be in Oak Hill cemetery.

Fenner Kimball.

Funeral services over the remains of the late Fenner Kimball will be held from the South Second street home, Thursday afternoon, at 2:30 o'clock. The interment will be in Oak Hill cemetery.

THE BAVARIAN PASSION PLAY

Presented at the Grand Tuesday and Wednesday Evenings.

In speaking of the world's famous Bavarian "Passion Play" as played in the last presention in Ober Ammergau and illustrated by some stirring moving pictures, which appears at Myers Grand tomorrow and Thursday evenings, the Congregationalist pays Prof. Holmes' lecture the following deserved compliment:

"To those who are fond of sacred art, the crude and simple representation of bible scenes and of the Saviour's life and death by Bohemian peasants in their Passion Plays is deeply interesting. The Cinematographe, presenting moving pictures of these plays on the screen, brings before the eyes, as it were, mediaeval paintings of scripture scenes without their color, and gives them life. In the Boston Museum these scenes, as given by the Horitz peasants, are being reproduced from Adam and Eve in the garden to the resurrection morning. They accompanied appropriate descriptions with scripture quotations, and the organ music with the rendering of hymns by an excellent soloist. Entirely devoid of irreverence and free from tediousness, the entertainment carries with it also artistic and religious elements. A visitor was heard to remark the other night as the crowd passed out, 'they ought to have taken up a collection,' which was his way of saying that he felt as though he had been to church."

The following members were appointed as a special committee to arrange for the commencement exercises: Coms. Mouat, Jeffris and Clemons.

The purchase and decorating committee of the School Art Auxiliary, through its chairman, Mrs. Ella Hotelling Tanberg, notified the board that the committee would have pictures placed in the first primary rooms this week. The primary room in the Central building will be the first to be decorated.

COLLECTION OF WAR PICTURES

Free Art Exhibit Now Being Held At Y. M. C. A. Building

Citizens of Janesville are taking advantage of the free art exhibit of pen and ink drawings now on exhibition at the Y. M. C. A. building, which is sent out by the Chicago Record and the Chicago Daily News, the two enterprising papers which own the same. The collection numbers 150 original drawings of scenes of the late Spanish-American war, sketched on the battle fields by famous newspaper illustrators. The drawings are by John T. McCutcheon, who was with Dewey at Manila, Wm. Schmedtgen and Walter M. Clute, who witnessed the Cuban campaign. The most important engagements of the army, as well as the navy is reproduced and to study them it is most interesting indeed.

Many of these drawings are valuable because of their accuracy, rather than works of art. The exhibit is in charge of Edward Warren Sawyer, who freely explains the exhibit to those who visit it.

THE Woman's Foreign Missionary society, of the First M. E. church, will hold their annual "thank offering" service in the church parlors tomorrow afternoon at 3 o'clock. A special program has been arranged and Mrs. Bosworth and Miss Sadie Bosworth will speak. All are cordially invited to attend this service.

WILL SOON SELECT POST OFFICE SITE

WITHIN THIRTY DAYS ONE WILL BE CHOSEN.

Representative Cooper Was so Informed at Washington Yesterday—Public Building Matter is to Be Taken Up at Once—Treasury Officials Are Preparing to Move Promptly.

Business men are deeply interested in where Janesville's public building is to located, and several real estate deals are about to be closed, affecting property that borders near available sites.

At Washington the treasury department officials are preparing to move promptly in promoting the construction of the new public building bills authorized by congress. Representative Cooper called yesterday at the supervising architect's office in regard to the building to be erected at Janesville. He was informed that the public building matters would be taken up at once. The officials say that arrangements will be made within thirty days for securing a site at Janesville.

The officials will determine what percentage of the gross amount shall be expended for a site and when the limitation is made no greater sum will be allowed.

BUNCH OF KEYS WAS RUSTY

Play Last Evening Was Lacking in Many Respects.

At the opera house last evening, a small sized audience assembled to witness Hoyt's play a "Bunch of Keys." The leading lady failed to make her appearance owing to a cold, which no doubt was due to the chilly audience.

The play contained a few good specialties but was not to be compared with Hoyt's "A Parlor Match" which was here last week.

With Walker Whiteside and Robert Mantell coming soon the theatre going public can easily overlook the mistake of last evening.

Manager Myers has some of the best attractions booked and is doing all in his power to please the theatre-goers.

WON'T ENLIST THE 35,000.

President Thinks Larger Army Is Not Needed.

VOLUNTEERS TO COME HOME.

The Peaceful Outlook in Cuba and the Prospect of an Early Ending of the Philippine Insurrection Have Caused This Decision.

Washington, March 7.—President McKinley has decided not to avail himself of the authority granted by the compromise army bill to organize a provisional army of 35,000 volunteers.

After consulting with officials of the war department, the president has decided that, in view of the present favorable outlook in Cuba and the prospect of the complete suppression of the Philippine insurrection at an early day, it will not be necessary, after the present volunteer forces have been mustered out, to have more than the 65,000 men allowed for the regular army until July 1, 1901.

It is also his purpose to expedite the withdrawal of volunteers from Cuba and the Philippines as rapidly as possible and muster them out of the service. All the volunteers are to be brought home from Cuba without delay and those in the Philippines will be brought home as soon as enough regulars can be sent out to take their places.

In desiring to avoid the enlistment of the volunteer army authorized, the president was actuated partly by political motives and partly by a desire to keep the war department expenditures down as low as possible. If he can get along without the volunteers, he will have a surplus instead of a deficit in the appropriation for the support of the army during the next fiscal year.

He will have authority under the law to appoint volunteer general officers and volunteer staff officers in sufficient number for the 65,000 regulars. If subsequent developments show the necessity for more men, the president will then exercise his power to enlist all or part of the 35,000.

KIPLING'S DAUGHTER DEAD.

Eldest Child Succumbs to Pneumonia—News Kept from Father.

New York, March 7.—Josephine Kipling, the 6-year-old daughter of Rudyard Kipling and the oldest of his three children, died shortly after 6 o'clock Monday morning from pneumonia. It was decided not to inform the author of his child's death for several days.

Mr. Doubleday said last night: "Mr. Kipling has had a comfortable day. He is beginning gradually to take nourishment of a more substantial kind. Of course he has the appearance of a man who has been at the point of death, and his mind works very slowly."

Union Pacific Lands Sold.

Omaha, Neb., March 7.—All the lands of the Union Pacific Railroad company in Nebraska covered by the sinking fund mortgage of 1873, given by the old company to the Union Trust company of New York, as trustees, were sold Monday in this city. The only bidder was W. D. Cornish, vice president of the Union Pacific company, who represents that company. Two protests against the sale were filed with the special master. These were not read, but were simply filed away for future reference. The equity in lands under contract of sale brought $900,000, and the unsold lands $1,000,000.

New York, March 7.—With liabilities amounting to more than $12,000,000, and assets of practically nothing, Jas. M. Waterbury and Chauncey Marshall of the National Cordage company filed petitions in voluntary bankruptcy in Brooklyn Monday. The schedules show perhaps the largest excess of liabilities over assets ever exhibited in an application for relief since the new bankruptcy law went into effect.

Chicago Live Stock Market.

Chicago, March 6.—Fair receipts for the opening trade went off quite readily today, values showing gain where any change all along the line. Many good cattle sold 5@10c higher, hogs mostly at 5c advance, sheep at firm prices and lambs 10c higher than during the last half last week. Today's receipts, estimated at 13,000 cattle, 36,000 hogs and 10,000 sheep, stand against 13,187 cattle, 35,292 hogs and 13,798 sheep the opening day last week and 20,978 cattle, 31,814 hogs and 22,647 sheep one year ago today. The average weight of the 185,032 hogs received here last week 231 lbs, stand against 288 lbs the week before and 226 lbs same week last year. Late hog trade gave some evidence of weakness, following a weak and declining provision trade, but most of the offerings had sold at the improved prices and in other branches the tone of trade was fairly firm throughout.

Dreary Outlook in Klondike.

San Francisco, Cal., March 7.—A letter from Dawson City says: "The business outlook for Dawson during the year is most unpromising. Even the saloons and gambling houses are reported to be making no profits. No new gold discoveries of importance are reported.

OHIO VALLEY IS FLOODED.

Cincinnati Expects a Sixty-Foot Gauge at That City.

LITTLE DAMAGE DONE SO FAR.

River Towns from Pittsburg to Louisville Have Suffered Slightly—Streams in Kentucky Swollen Out of Their Banks—Blockade in Wyoming.

Cincinnati, Ohio, March 7.—Fifty-three feet and nine inches was the stage of the Ohio river early this morning. The rainfall in the limited section of the Ohio watershed south and east of the Ohio river has been much greater than any one expected. The rate of rise at this point is about three inches per hour. This rate has been maintained for more than twenty-four hours.

Reports from above show the Monongahela and the Allegheny are stationary. At Brownsville and Morgantown near the head waters of the Monongahela, where the great supply came from to make the flood in that river, the waters are falling, with seventeen feet at Morgantown and nearly twenty-three at Brownsville. At Wheeling the stage is twenty-six feet, and three feet more is expected. Further down the river at Parkersburg. W. Va., the river is stationary. At Gallipolis it is forty-seven feet and rising slowly. At Portsmouth it is fifty-four feet and ten inches and rising two inches an hour. Taking the Portsmouth stage as an indication in connection with the condition of the river at points above up to Parkersburg the indications are that the maximum stage reached at Cincinnati will be fifty-nine and possibly sixty feet.

Damage by flood on the cities on the Ohio so far reported are slight. At Huntington, W. Va., where the stage is fifty-two and one-half feet, two barges of coal were sunk in the Guyan and thousands of sawlogs were washed away. Most of the logs have been recovered before reaching Portsmouth. At Portsmouth cellars and factories are flooded on Front street, while on Mill, East Front and Jackson streets many people have been driven from their dwellings. Very little interference with business has been experienced.

The stage in the lower Ohio is such that no more coal will get away from the fleets in harbor at Louisville down the river until the flood recedes.

At Charleston, W. Va., the city is still nearly half submerged, but the river is steadily falling at the rate of two inches an hour, having receded about three feet already. It is estimated that 5,000 people have been driven from their homes and will not be able to return for several days.

At Gallipolis the lowlands and a part of the city are flooded. The Ohio river overflowed its banks at Point Pleasant and nearly all of the business portion of the city is flooded. Schools are closed and all business suspended.

The swollen streams in Kentucky are causing great damage, especially to farmers, and it is feared the worst is yet to come, as the streams are still rising. Besides the damage to property, several casualties have resulted already. J. W. Gordon was drowned near Frankfort while trying to ford Stony creek. William Abshire, near Richmond; Jacob Ewing at Ewing station, and Neal Carter, near Mount Sterling, lost their lives in a like manner.

Cheyenne, Wyo., March 7.—All trains on the Wyoming division of the Union Pacific are again tied up. Wires between here and Iron Mountain, which have been down for a week, have been repaired.

No Guarantee for the Bonds.

Washington, March 7.—It is authoritatively stated that under no conditions will the government of the United States recognize in any manner any financial obligations issued by the so-called assembly of the Cuban army, now in session near Havana. Should this body see fit to authorize the issue of any bonds for any purpose the government of the United States will not be led into guaranteeing them, and they must stand on their own resources in that matter.

Disaster May Be Due to a Crime.

Paris, March 7.—The deaths resulting from the Toulon explosion of Sunday morning number 54 and 130 persons were injured. The reports that the catastrophe was the result of a crime are renewed. The Petit Journal asserts that a fuse four feet long has been found in the ruins of the magazine.

Relapse for Senator Jones.

Washington, March 7.—After improving steadily for about ten days, Senator J. K. Jones of Arkansas on Monday had a severe recurrence of his trouble, the paroxysm lasting something over an hour. At night he was resting easily and was free from pain.

As the season of the year when pneumonia, la grippe, sore throat, coughs, colds, catarrh, bronchitis and lung roubles are to be guarded against, nothing "is a fine substitute." will "answer the purpose," or is "just as good" as One Minute Cough Cure. That is the one infallible remedy for all lung, throat or bronchial troubles. Insist vigorously upon having it if "something else" is offered you. The People's Drug Co.

WAS A WEIGHTY TASK

THE PART FERGUSOM PLAYED IN PEACE NEGOTIATIONS.

He First Became Famous During the Sessions of the Pan-American Congress by Delivering Blaine's Great Speech in Spanish.

Cable reports from Paris have had much to say of late of the splendid work done by Mr. Arthur W. Ferguson, attached to the American peace commission as official interpreter. He is the son of Col. Tom. Ferguson, who distinguished himself in the Mexican war, and at the close of that war located in Mexico. It was there that Arthur Ferguson was born and received early training amid the old Spanish surroundings which fitted him for the skillful interpreter he has since be-

come. He was educated at Georgetown college.

It was when Blaine called together that notable assemblage from North, South and Central America, known as the International American congress, that Ferguson first made his appearance as an official interpreter. Mr. Blaine's right hand man on that particular occasion was William E. Curtis, who, in looking around for translators and interpreters, recalled that young Ferguson had spent his early life in a Spanish-American country, and was doubtless fitted for this particular work. Ferguson undertook the task, and he made his bow as official interpreter by taking the memorable speech of James G. Blaine, greeting the South and Central Americans, and rendering it into Spanish. It was no easy task, for Blaine spoke rapidly and with that wealth of figurative speech which always marked his discourse. But Ferguson did it not only rapidly and well, but with felicity of expression, such nice shading of figures and metaphors that it drew the enthusiastic applause of those Spanish auditors. It was such that when Blaine turned from the reading he remarked to some state department officials:

"I don't know whether that was my triumph or Ferguson's."

At all events Ferguson made his reputation then and there as an interpreter, who could not only give the letter of the speech, but could convey its spirit, even its accent and its modulations by which the speaker sought to impress one or the other feature upon his hearers. Since then he has acted as interpreter in many notable gatherings. He is a man of splendid physique, six feet three inches in height, broad shouldered and robust, weighing probably 250 pounds.

AN AGENT OF WEALTH.

Professor Arthur T. Hadley of Yale, the new president of the American Economic association, is a distinguished teacher of the science with which the organization concerns itself. For some years he has been professor of economics at Yale, and his writings upon that topic have been widely read. His text-book, "Economics," is one of the most useful volumes of its kind and is held in high esteem. Professor Hadley has a reputation as an economist that is not limited to the United States and he is in every way fitted for the post voted him by his fellows in the

association. He is the trainer of Yale's young debaters, and is very popular with the students. Among the candidates prominently mentioned for the presidency of the great school at New Haven, Professor Hadley is one of the strongest and ablest.

A Woman Fixed Thanksgiving Day.

According to the Boston Transcript, it was a woman who was the means of having a definite day in the year set apart for the national observance of Thanksgiving. Mrs. Sarah Josepha Hale, a Boston woman, and editor of the first woman's magazine published in this country, worked for twenty years to accomplish this end. Time did not daunt her courage, but rather increased her insistence. She wrote to governors of states and to presidents of the United States. At last President Lincoln adopted her suggestion in 1864, when there was reason to rejoice over the success of the North in restoring the union.

STUCK TO HIS ELBOW.

War Revenue Stamps Which Disappeared but Turned Up.

"These war revenue stamps are certainly an unmitigated nuisance," said a New Orleans business man to a Times-Democrat reporter, "especially the ones we are obliged to attach to our telegrams. I don't care how frequently you use the wires in the course of the day you are still as liable as ever to forget to stamp the last message. A few nights ago I had occasion to send a telegram from my home, and the servant came back in about an hour to say that I'd neglected to put on the stamp. I rushed him out to buy a few, and after a good deal of trouble he secured a couple at a drug store—the only ones, I really believe, in the whole neighborhood. By that time I concluded to rewrite the message, and before doing so placed the stamps carefully on the edge of my library table. When I got the wording arranged to suit me they had vanished—disappeared into space. I never knew of anything more mysterious. I was certain down to a fraction of an inch where I had put the confounded things. There was no breeze or current of air to have carried them away, and no time for them to be hidden by accidental disorder. Yet they were gone; that was undeniable, and we searched and researched in vain. We pried into all sorts of impossible nooks and crannies, and at last gave up in despair. I was tired out, grimy and exasperated, and rather than go to any further trouble concluded to wait until next day before sending the telegram. When I got down to the store in the morning I pulled off my coat, and the first thing I saw was the two stamps sticking to my sleeve at the elbow. I suppose I must have touched them accidentally while writing, and they hung to the cloth like grim death. Anyhow, I had had them right there, literally at my elbow, all the while we were making that search. I didn't say anything, because I couldn't think of anything that seemed to fit the case. But telegraph stamps are a nuisance. They ought to be abolished and something substituted that involves less sorrow and sweat and swearing."

Sure.

Phyllis—Are you sure you love me? Corydon—I ought to be. I think I have been in love often enough to recognize the symptoms.
